## Report of Forest Fire Warden

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely co-ordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us: (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9 a.m. and 5 p.m. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk, the best way to dispose of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.

3. Don't leave a live camp or cooking fire.

4. Most important — Instruct your children that matches are not play things.

During 1966, 28 permits were issued in Eaton and in the whole district 3,281. There was one fire at the Cove Camping Area believed to have been caused by lightning. On-half acre was burned. There were 38 fires in the rest of our area.

ROBERT R. PATTERSON,

Fire Warden

### REPORT OF SPECIAL READING TEACHER

"Today's children can learn to read" is the heading of many articles and editorials. The school agrees and has been striving daily to teach all the children of all the people. Indeed the schools have done rather well according to statistics!

The lack of materials and time to teach have been two handicaps.

Many new texts have been provided, such as the S.R.A. Kits for individualized reading, supplementing the basic reading program. Paper-covered Library Kits for each grade level are now being used. New teaching machines are in each building to implement the teaching process. The overhead projector is very adaptable and can be used for a few or an entire room. The new Tachist-O-Films with the projector that times the flashes is designed to increase accuracy and speed at all levels from simple letters to phrases. The Language Master, which is a simplified tape recorder, allows a child to work in a small group or alone. Many games to provide drill on the word skills have been placed for use.

The role of the special reading teacher is to provide more of that essential ingredient, time. Time is needed to find the individual's specific needs and to reinforce those needs, either individually, or in small groups.

There are eight schools in our district. My time is allotted according to the pupil enrollment and the money available in each district. I work with individuals and small groups throughout the day. Most of my time has been with the lower grades.

More than seventy children have been tested individually to ascertain their grade level and comprehension capacity. These suggestions give a basis on which to start instruction. In many instances, the entire reading group meets with me for specific instruction. Much of the work is phonics, syllables, and accent, and increasing word power. Better listening habits and comprehension are two goals constantly in mind.

My methods have included a careful diagnosis of reading problems and the selection of proper materials for each child. These factors plus the active co-operation on the part of both children and teachers, have increased my own effectiveness. A continued pattern of the above variables should provide each child with more confidence through his increased improvement in reading skills.

In my work in School Union No. 9, I have found an able administration, co-operative fellow workers, and challenging work with boys and girls at every grade level.

LEONE M. SHERBURNE,

Special Reading Teacher

## ANNUAL REPORT OF SCHOOL NURSE

Mrs. Stark, dental hygienist from the N. H. Bureau of Dental Public Health, left dental hygiene educational materials for follow-up of her talk on March 22, 1966.

Six pupils participated in the program for dental cleanings and applications of topical fluoride May 3, 1966.

At this time I would like to thank all who helped to make this program possible.

Respectfully submitted,

REBECCA P. SANBORN, R.N.

## ROLE OF THE ELEMENTARY SCHOOL COUNSELOR

I am pleased to be able to submit a progress report concerning my role as school counselor as funded under Title I, Public Law 89-10. Since the role of elementary school counselor was new to the school union, I felt obliged to define and communicate this role to parents and teachers. As a school counselor, I meet with individuals and groups to deal with the normal developmental problems of children which interfere with their academic achievement and personal growth. I am also concerned with the various school union-wide tests being given to determine which pupils are working up to their potential and which are not.

Thanks to the help and co-operation of the principals and teachers in the school union, the program is well under way. Private interviews are conducted in every school that is visited. The two highest grades in each school are participating in constructive group discussions. Interviews with parents and teachers are provided to discuss the progress of specific children. The first half of the STEP Reading Test Program, has been completed. The Stanford Achievement tests are now being given and will soon be completed. Within a short time the Lorge-Thorndike Intelligence Tests will be administered. Lastly, rapport has been established with the Carroll County Community Service and periodic meetings are conducted to discover ways in which we can better aid each other.

The work that has begun will continue with the hope that as the role of the school counselor becomes clearer in the minds of children, parents, and teachers, more effective service can be rendered to more children.

I would like to thank all the people who have worked with me in the formation and implementation of the school counselor program.

LAWRENCE ZEGER,  
Elementary School Counselor
